ATTENTION: R. Scott Lupin

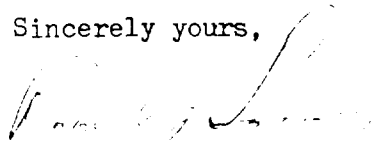

Dear Mr. Lupin:

In reply to your letter of December 21, 1984, the following information is submitted.

The material disposed of by our company has consisted of paper, cardboard, grass clippings, broken tree limbs, plastic container bags, and small metal trim strips used for advertising display boards. To my knowledge nothing considered as hazardous waste was ever disposed of at Kummer Sanitary Landfill.

The only records we have are invoice slips from Kummer and our cancelled checks in payment of same.

Sincerely yours,

Robert J. Lowth
